

The institution solicits online/ offline feedback from the students with regard to their level of satisfaction, grievances and appreciation pertaining to academic services rendered by the institution to the student community. On the basis of such feed-back the institution can afford to re-orient its approaches to cater to the optimum benefits of the students within its command. Accordingly, a set of questions were distributed through the online mode to all the 3rd semester and 5th semester students. Although the questionnaires were distributed to all the students, but feedback could be collected from 302 students only.

The responses collected were analysed and interpreted as follows: -

1) Opinion about being a member of Women's college

2) Percentage in the Recent High school Leaving certificate Examination

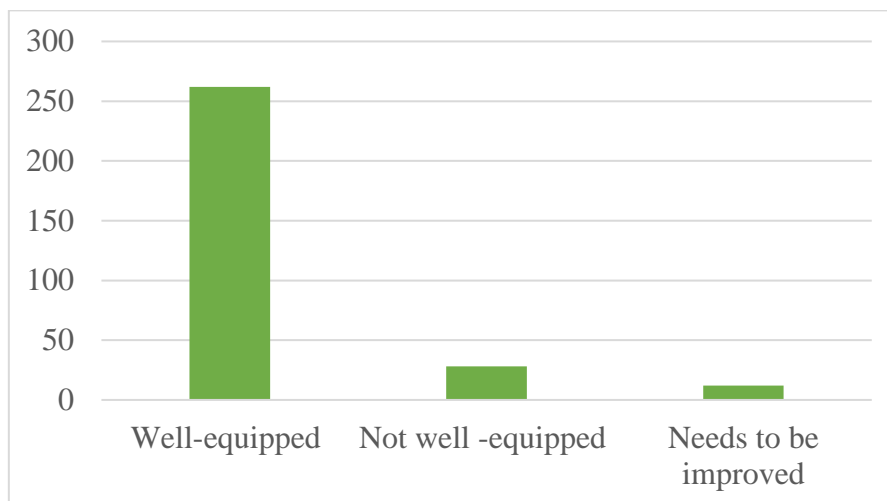

3) Chosen Field of study

4) **Online pursuits**

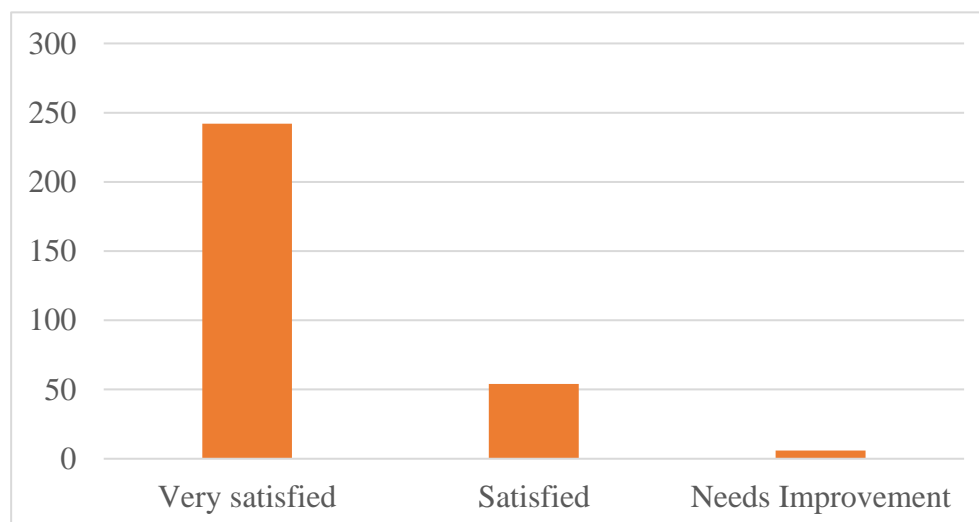

Due to Covid19 pandemic the institution had resorted to online pursuit. The responses of the students regarding online classes were collected.

The collected responses revealed the following:-

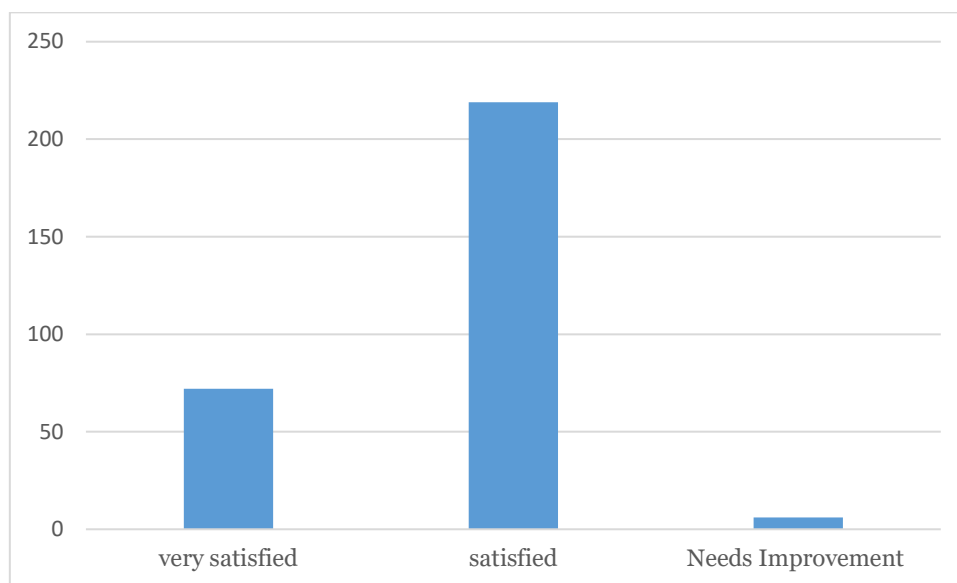

5) **Online classes and the level of satisfaction of the students**

The responses of the students regarding their level of satisfaction with regard to online teaching were collected. The collected responses revealed the following:-

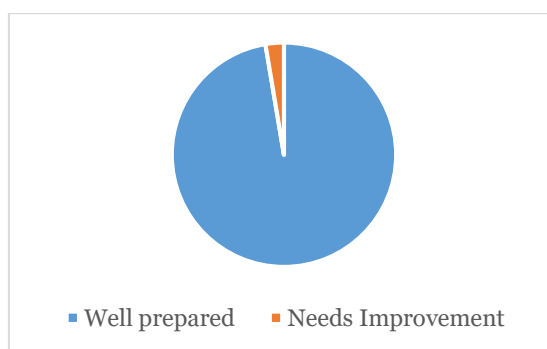

6) Study Materials

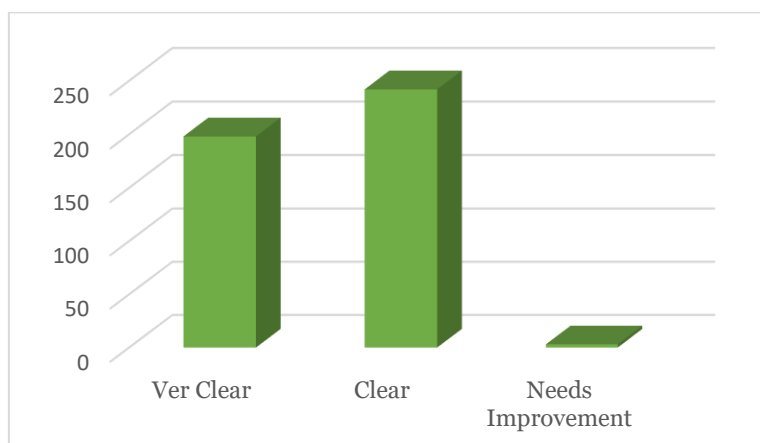

For the above analysis it could be concluded that majority of the students were satisfied with the study materials provided by the teachers.

7) Preparedness of teachers

8) Clarity in Teaching

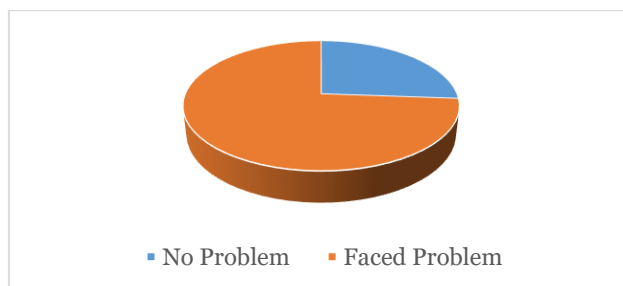

9) Completion of Syllabus

- All the students unanimously agreed that the syllabus was completed well before time.

10) Comprehension of topics

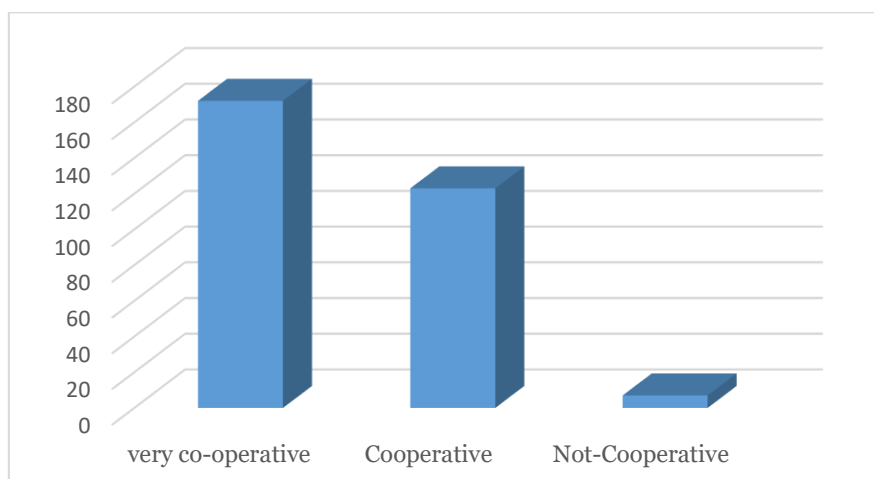

- All the students unanimously agreed that the topics given for assignments were helpful and insightful.

11) Problems faced while submitting Assignments and tests

Students who faced problem concluded that the problems faced were mainly due to network issues.

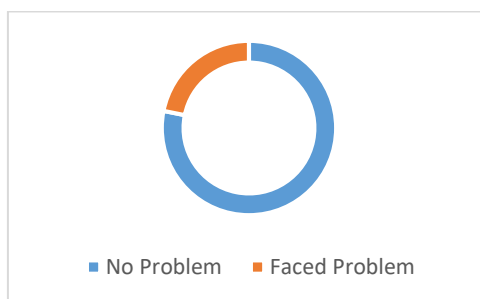

12) Co-operation of Teachers while collecting Assignments and Tests

13) Awareness of teachers to students learning difficulties

A large group of 274 students i.e. 91 % responded that the teachers were aware and responsive to students- learning difficulties. The teachers addressed the problems and also solved them in the best possible ways.

14) Problems faced by Students while writing Online External Examination

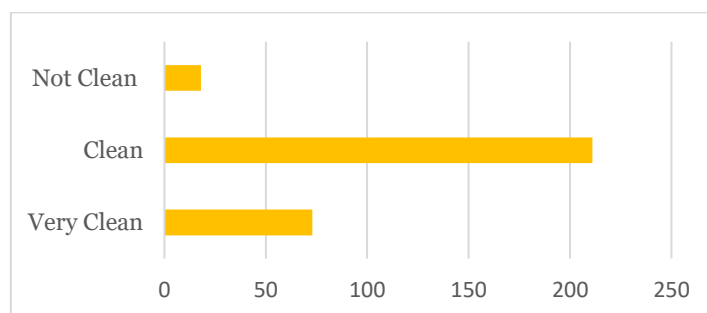

The responses revealed that the problems were mainly due to network issues. They were also confused with the question papers and email Ids while submitting the answer scripts.

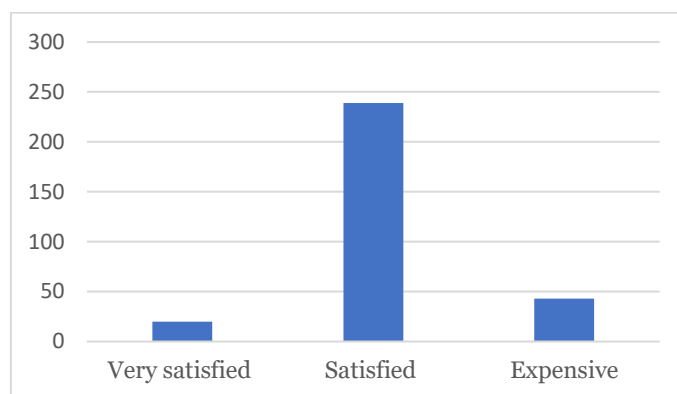

15 Library

- 77.81 % of the respondents responded that the books kept in the college library were sufficient.
- 82.11 % of the students revealed that the library working hours were very suitable for them.

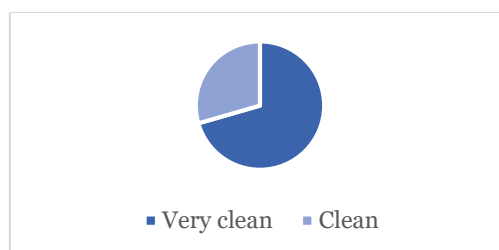

16) Cleanliness of classrooms

17) College Canteen

18) Washrooms

19) Treatment received from personnel

All the students unanimously responded that they were all treated well by the Principal; teaching and non-teaching staff of the college.

20) The suggestions provided were the following:-

- All the teachers and students must be punctual for online classes;
- The students should be encouraged to ask questions;
- The management should improve campus internet service.
- The college should include moral value education; life skills training;
- The institution should arrange and provide guidance on programmes / courses offered after completion of graduation programmes.
- The students should be made aware about the courses which will train them to be skilled for some vocations.
